REVISION SKINCARE® DOES NOT MANUFACTURE OR SELL NEUROMODULATORS.
REVOX™ LINE RELAXER IS NOT AN INJECTABLE PRODUCT.

The Power of Innovation

Revision Skincare® has once again pushed the boundaries of topical skin care performance. Specifically formulated to be paired with a neuromodulator, Revox™ Line Relaxer is an advanced targeted serum that helps to significantly impact the appearance of horizontal and vertical expression lines.

FEATURING

Patent-Pending
LineRelax™ Technology

“We've become so neuromodulator dominant that we think they can do everything, but the relaxation of the muscles can only do so much. Remember, people cannot see your neuromodulator or your fillers. What people see is the quality of your skin. Revox™ Line Relaxer not only enhances the results of neuromodulators, but it also rejuvenates the health of the skin over time which neuromodulators cannot do.”

The Power of Revox™ Line Relaxer as a Stand-Alone Product

Expression lines are no match for the 8-peptide power of Revox™ Line Relaxer. In addition to creating a powerful synergy when used in conjunction with a neuromodulator, when Revox™ Line Relaxer was used as a stand-alone product during a 12-week clinical study the results were also significant*:

15 Minutes Post-Application

- **97%** of subjects showed an improvement in the appearance of expression lines and under-eye lines
- **45%** of subjects showed an improvement in the appearance of wrinkles

After 8 Weeks

- There was a **29% average reduction** in the appearance of expression lines and under-eye lines

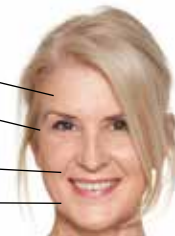

After 12 Weeks

- There was a **38% average reduction** in the appearance of expression lines and under-eye lines
- There was an improvement in the appearance of **radiance, texture and overall appearance**

This clinically-proven serum substantially reduces the appearance of horizontal and vertical expression lines including:

- forehead and glabellar lines
- crow's feet and under-eye lines
- nasolabial folds
- marionette and vertical lip lines
